They were Chief Judge Bertlett and Judges Werner, Hiscock, Chase, Hogan, Cuddebach and Cullen, Mandamus proceedings were brought by Sulzer's counsel to compel Computoller Schmer to pay the former governor his salary from the time of his removal from office, Oct. 17, 1913, to the date his term would have expired, Dec. 31, of this year.

The court held that Sulzer was not entitled to his salary because the office of governor is now held by another person not a party to the present action, and also because he has accepted the office of assemblyman since being removed as governor. Smoke and Steam Visible at a Distance of Eighteen Miles.

Redding, Cal., June 2.—Smoke and steam issuing from the new crater near the summit of Mount Lassen were plainly visible today from the forest supervisors' station at Mineral, is miles distant. Atthough the smoke, which was seen first on Saturday, was reported to have ceased at noon yesterday, the foresters telephoned today that great clouds were again spouting from the aperture.

Doubt was raised by W. J. Rushing, district forest supervisor at Mineral, as to whether discharge of smoke and steam had ceased at all. There is a ridge lying between the forest station at Mineral and the size of Lassen's new crater, and this, Supervisor Rushing explained, would shut off a view of a column of smoke under certain conditions of the wind.
